INTRODUCTION

The FY24 (July 1, 2023 to June 30, 2024) edition of Iowa Public Library Statistics includes information on income, expenditures, collections, circulation, staff, and several other measures. Each section is arranged by size code, then alphabetically by city. The totals, averages, and percentiles for each size code grouping are given immediately following the alphabetical listings.

The following table lists the size code designations, the municipal range in each size code, the number of libraries reporting in each size code, and the total population of the reporting libraries in each size code. The total population served by the 544 libraries is 2,502,732. 2020 decennial population data is used to determine per capita figures throughout the publication.

Library size codes are based on the population of the city that the library was established to serve. Population figures are from the 2020 Census or most current special census. County library populations are based on rural county population and contractual agreements.

Of the 544 public libraries in Iowa, 515 submitted an annual survey for FY24. Only those public libraries that submitted a verified annual survey are included in this report. The table of size codes (pages 5-6) lists the public libraries alphabetically. The data elements and definitions used to collect the information in this document are taken from the **Public Library General Information Survey**.

SUMMARY

Public library statistics are used at the local, regional, state, and national levels. They are used to compare library performance, justify budget requests, track library data over time, assist in planning and evaluation, and provide valuable information for grants and other library programs. All 50 states collect information according to guidelines and definitions established by the Public Library Statistics Cooperative (PLSC). The rankings below include all 50 states, the District of Columbia, and the five inhabited US territories.

The PLSC provides state-by-state rankings for public libraries. In FY21, the latest national data available, Iowa public libraries ranked as follows in comparison with other states. In FY24 Iowa had 544 independent public libraries which ranked 4th nationally behind New York, Illinois, and Texas.

Iowa Public Library Statistics FY24:

INCOME

The income section includes revenue from all government sources for FY24. It also includes non-governmental revenue such as gifts or endowments.

Library per capita income is included from city and total sources. County per capita income is used for county libraries rather than city per capita income.

Per capita income is determined by taking the library's income and dividing it by the city's population for city public libraries and service area population for county public libraries.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. County public libraries are listed as size code I. To determine the size code of a library, refer to the table on pages 5-6.

Iowa Public Library Statistics FY24:

EXPENDITURES

The expenditures section includes spending for library operations in various categories including staff and collections. It also includes other operational expenditures such as equipment, utilities, and building maintenance.

Total per capita expenditure is included. Per capita expenditure is determined by taking the library's expenditures and dividing it by the population of the city, or county in the case of the three county libraries.

Capital expenditure amounts are separate totals and not included in the "Total Expenditures" or "Per Capita Expenditures" amounts.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. To determine the size code of a library, refer to the table on pages 5-6.

Iowa Public Library Statistics FY24:

COLLECTIONS

The Collections section lists the number of total items available for use as of June 30, 2023.

Library collections include physical and electronic items such as:

- Print – books
- Audio – records, tapes, CDs
- Video – videocassettes, DVDs, Blu-Ray discs
- Downloadable (DL) - EBooks, audio, video
- Licensed databases
- Other materials such as puppets or toys.

We have distinguished between physical and downloadable items, and give a grand total including all items owned by the library.

To save space, “downloadable” has been abbreviated as DL.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. To determine the size code of a library, refer to the table on pages 5-6.

Iowa Public Library Statistics FY24:

LIBRARY TRANSACTIONS

The Library Transactions section shows the use of library materials and other resources as follows:

- Circulation (Circ) – counts the use of physical and downloadable materials including renewals.
- Interlibrary Loan (ILL) – counts the transactions when one library borrows from another library. The counts shown are:
  - ILL items provided to other libraries
  - ILL items received from other libraries
- Reg'd Users – counts the number of registered library customers.
- DL – Downloadable material.
- PHYS – Physical material.
- Mag – Serials – magazines, periodicals, etc.
- DB – Licensed database use and use of other electronic resources
- Total Circ (PHYS & DL) most closely corresponds to total circulation from previous years' reports. Does not include database use.
- Per Capita (Per Cap) – is figured by dividing total circulation by city population (or county population in the case of county libraries.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. To determine the size code of a library, refer to the table on pages 5-6.

Iowa Public Library Statistics FY24:
PROGRAMS AND ACTIVITIES PART 2

The continuation of the Programs and Activities section brings in these new data elements. The first part of the table includes totals for onsite, offsite, and virtual. These categories are also part of the age categories listed in Part 1. For example, the young adult category in Part 1 includes the counts for onsite, offsite, and virtual. To save space on the table, programs and attendance are shortened to Prog and Attend.

- Onsite programs and attendance

Iowa Public Library Statistics FY24:

WAGES & FTE

This section includes information about:

- Hourly wages for director, assistant director, department heads, children's librarian, clerks, shelvers, and janitorial staff.
    - If more than one person serves at a position, an average is given.
- Number of staff and FTE.
    - To save space, the word librarian is abbreviated as Lib.

For this survey, 40 hours worked per week has been set as the measure of FTE (Full Time Equivalent). For example, two employees who work a total of 60 hours per week divided by the 40-hour measure equals 1.50 FTEs.

The listings that follow are in alphabetical order by size code. Size codes are based on the population of the city served. To determine the size code of a library, refer to the table on pages 5-6.
